

## hose DN12

## **Technical data**

Operating temperature range

Material Braiding

Nominal width (DN)

Length
Net weight
Outer covering

Outside diameter Max. pressure at 20°C

Min. bending radius

-40...100 °C

EPDM

Yes

12 mm

variable 0,28 kg

without isolation

19,6 mm

20 bar 50 mm

.....

Order-No.: 10506

1.0/16

Technical details and dimensions are subject to change. No liability is accepted for errors or omissions. Illustrations can deviate from the original.

Information: Operation at high temperatures and/or high pressures should be limited to 12h/day to exend hose life.

When used with DW-Therm® these hoses may show deterioration earlier than when used with other recommend HUBER heat transfer fluids.
